

**INTRODUCTION**

The CE 0102FT series of Frequency Transducers are reliable and accurate transducers available in the following combinations

**TECHNICAL SPECIFICATIONS****Input Options**

Frequency: 45-55Hz, 45-65 Hz, 55-65 Hz, 360-440 Hz (Any One)

AC Voltage ranges 63.5, 110, 230, 440V. Through PT for higher Voltages. (Any One)

**Output Options (Single or Double Outputs)**

4-20 mA, 0-10 V DC as per scale. (Any One)

(Other Voltage and Current Outputs available on request)

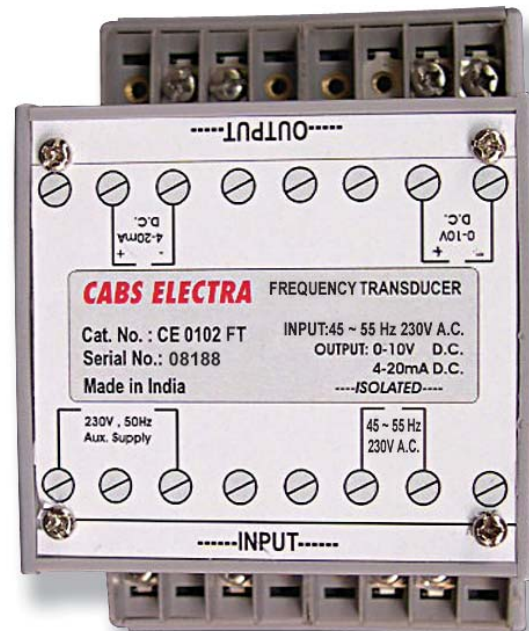

**Aux. Power options (Any One)**

110V AC 220V AC

24V DC to 270 V DC

**Mounting & Enclosure :** Din rail mounting

**DC to DC isolation transducers are also available**
